WHOLESALE * TRADE * LIST

1890.

CABBAGE,
BUCKBEE'S MAMMOTH LATE FLAT DUTCH.

VEGETABLE * GARDEN * SEEDS

GROWN BY **H. W. BUCKBEE** AT THE

ROCKFORD SEED FARM,

ROCKFORD, ILLINOIS, U. S. A.

TO THE SEED TRADE :

In presenting my new Trade List to both old and new customers, I am confident that it will meet any and all demands for high-grade stock, even among the most critical. If you would build up a successful trade, you must obtain the earliest, best, and most productive stock that the market affords. My STOCK is large, strictly fresh, and of strong germinating qualities, being selected only from plump and vigorous samples. My PRICES are very low, based on only select, strictly first-grade stock. In giving your orders direct to first hands; you crowd out the middle man, and thus save money on every deal.

We all know Western Seeds are superior to all others. Why? Because our western grown vegetables are two or three times the size of Eastern grown; therefore the seed from such stock is plump, and has several times the germinating qualities of that grown on the poorer lands in the East. It does not stand to reason that poor, shriveled stock is equal to large, plump, well-ripened seed.

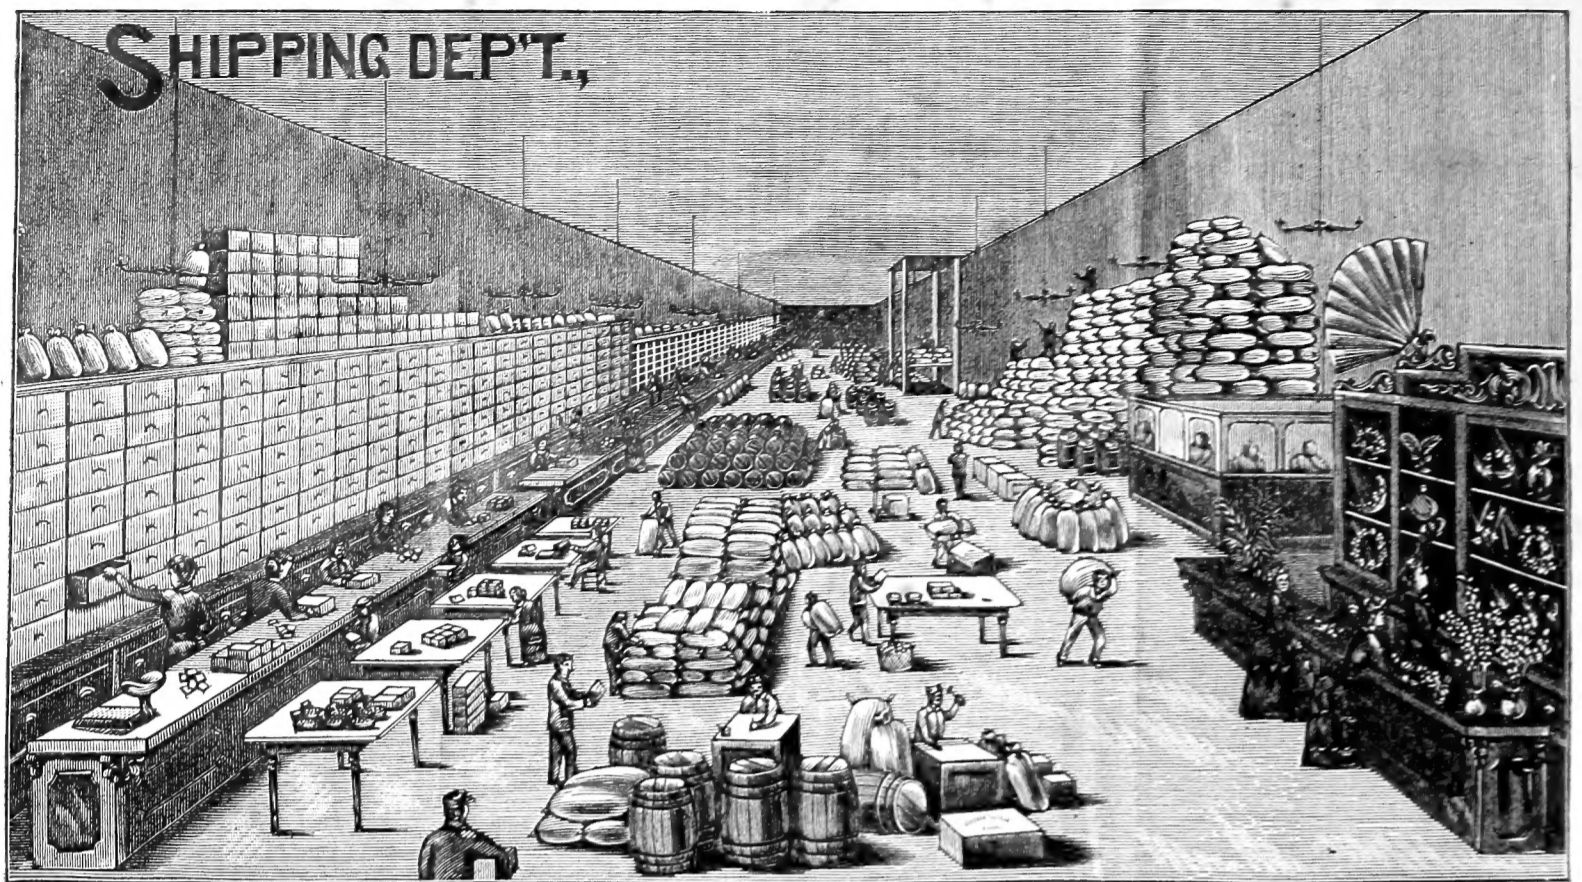

TERMS—Cash.

Shipping.—Directions for shipping should accompany all orders. All seed will be shipped by freight or express at buyer's expense. If you wish me to ship any orders by mail, add 8 cents per lb. extra.

Packing securely done. Stark A, 2-bushel bags, 20 cents each. No charge for cartage, boxes or small bags.

Telegraph communications transmitted at once by Telephone.

H. W. BUCKBEE,
ROCKFORD, ILLINOIS.

NEW CROP OF VEGETABLE SEEDS FOR 1890.

Grown and Tested by H. W. BUCKBEE. Half Pound and Half Bushel at Pound and Bushel Rates.
